Nortel T7100 Telephone

The sleek and simply designed T7100 delivers Norstar and business Communications Manager features and reliability to low-traffic areas - such as lobbies, office kitchens, reception rooms and cafeterias. This single-line telephone is an easy-to-use but highly functional telephone set with a programmable memory button and 16-character LCD window with MWI/VRL.

Built on the strength of the industry-leading Norstar Product Portfolio, the Business Series Terminals allow small and medium-sized businesses to deploy a modular solution that will scale as your business grows. The telephones support both the Norstar and Business Communications Manager system platform and provide investment protection and clear migration paths.
