

## CS500™ Series

Plantronics legendary CS family is setting a new wireless standard for desk phone communication with the CS500™ Series, which features the lightest DECT™ headset on the market, a new streamlined design and improved performance. Go mobile and multi-task up to 350 feet from your desk with answer, end and mute controls at your fingertips. And no matter what your preference, with three wearing choices there's one to match your personal style. Enjoy the sleek contemporary design of the new system, premium wideband audio quality and wireless mobility, all with the same reliability for hands-free productivity that has made the CS family a best seller for nearly a decade. With the new CS500 Series we are raising the bar once again for desk phone headset systems.

### Features:

- Gain mobility: multitask, hands-free up to 350 feet
- Use with Electronic Hookswitch Cable or Handset Lifter to remotely answer/end calls
- Audio controls volume/mute at your fingertips
- Adaptive power system optimizes for range and talk time
- Voice-dedicated DECT™ technology eliminates Wi-Fi interference
- Advanced wideband audio using CAT-iq technology enables clearer conversations
- Choose narrowband mode to preserve talk time or wideband mode for clearer conversations
- Elegant magnetic headset docking (CS540, CS530)
- Noise-canceling microphone filters out background noise
- Digital Signal Processing (DSP) provides more natural voice sound
- SoundGuard® technology protects against audio spikes
- Conference in up to three additional CS500 or Savi headsets for enhanced collaboration
- New headsets can subscribe to a base by simply docking the headset
- Auto answer option lets you answer/end calls by removing/replacing the headset from the base
- Up to 9 hours talk time on a single charge (CS510/CS520)
- Up to 6 hours of talk time on a single charge (CS530)
- Backed by Plantronics industry-leading global service and support

## Savi® 700 Series

Enjoy wireless freedom while seamlessly managing PC, mobile and desk phone calls with a single intelligent headset system.

The Savi® 700 series is changing the way productivity-focused office professionals communicate. With three-way connectivity, easily manage and switch between PC, desk phone, and now mobile calls from a single wireless headset. With a new convertible headset we've added the lightest DECT™ headset on the market to our suite of wearing styles so you can choose the one that's best for you. Optimized for Unified Communications, the system automatically updates your status to "busy" on PC, mobile and even desk phone calls so colleagues can see your availability. This intelligent system combines best-in-class sound quality, hands-free mobility and hours of talk time for ultimate efficiency. Once you experience a Savi 700 headset system you'll wonder how you ever lived without it.

*\*With supported softphones. Plantronics software is required.*

### **The Savi 700 Series is available in two versions:**

- UC standard version supporting one-touch call control with softphones and UC applications from Cisco®, Avaya®, Microsoft®, IBM®, Skype® and more
- Microsoft-certified version optimized for Microsoft® Lync 2010 and Microsoft® OCS 2007

### **Features:**

- Three-way connectivity lets you easily switch and mix audio between PC, mobile and desk phones with one intelligent, wireless headset system
- Ideal for office professionals who use multiple devices and require best-in-class sound quality for their business communications
- Choose the style that's right for you with more wearing style choices than any other wireless headset system on the market
- With one-touch call answer/end, vol+/-, mute and flash, manage calls from any connected device up to 350 feet from the charging base
- Automatically routes mobile calls to the mobile phone or headset - whichever device is within easy reach
- Transfer audio between headset and mobile phone with a press of a button so you can leave the office and take the mobile call with you
- Adaptive power system optimizes for range and talk time by automatically downshifting to low power when the headset is close to the base to save battery life and maximize density
- Collaborate between colleagues no matter which device you call them on with the ability to mix/conference audio between any two phone devices
- Conference in up to three additional Savi headsets for improved call efficiency and guest headsets can even continue through multiple calls
- DECT™ technology provides best-in-class audio and eliminates interference from Wi-Fi networks
- Advanced wideband audio using CAT-iq technology for high definition voice quality

- Noise-canceling microphone reduces background noise interruptions, ensuring great audio quality and easing listener fatigue
- Enhanced Digital Signal Processing (DSP) provides more natural voice sound, delivering clear audio the way it's intended to be heard
- SoundGuard® technology ensures listening comfort and acoustic limiting for protection against audio spikes
- IT deployment for the Savi 700 Series is supported through the Plantronics UC Toolkit resources, including best practices and off-the-shelf training for simplified deployment

**With Plantronics software get the added value of:**

- Headset answer/end/mute/flash control across multiple softphones
- UC presence automatically updated when on a call; not only on PC calls, but also when on mobile or desk phone calls
- Battery meter conveniently displays headset battery life remaining in PC icon tray
- Headset control panel allows for customization of settings, including call notification and related options
