

Savi[™] Office

Work smarter with the versatile and powerful Savi Office.

In today's busy office environments, collaboration goes far beyond traditional two-way conversations. Many common business applications now run on PCs. But where does that leave users when they must rely on substandard PC audio for conference calls, video, webinars, Web conferencing, multimedia presentations, music and other audio-driven activities?

Savi Office answers the call by delivering outstanding PC sound quality and audio management in a single, wireless headset system—simplifying collaboration and communication to make audio activities more productive and less disruptive.

Experience maximum versatility and superior PC audio quality—the intelligent Savi Office wireless headset system by Plantronics, the leader in innovative audio solutions for nearly 50 years.

Savi Office™

Outstanding audio quality

- Wideband for best PC audio
- Noise-canceling microphone filters out distracting background noise
- Digital Signal Processing (DSP) provides more natural voice sound

Simplified audio management

- Mix PC audio and desk phone calls—for the most versatility
- Support for audio hold, mute, ring tones, volume, and personalization of other default settings for a customized audio experience
- Enjoy the wireless freedom to be hands free while on a conference call or listening to a Webinar

Collaboration and sharing

- On-the-fly conferencing—link up to four Savi headsets to a single system base
- Innovative modular design allows multiple Savi headsets to subscribe to one master base system—making it ideal for desk sharing and shift changing work environments
